

**2015: Native Plant Garden Tour
Information Sheet and Submission Form**

The 2015 Native Plant Garden Tour is again being organized by Habitat Acquisition Trust. The intent is to have five private gardens that showcase a variety of native plant landscape treatments with enthusiastic hosts to present information and answer questions posed by 50-200 visitors. Large, small, wholly native or a garden that demonstrates how native plants can share space with ornamental plants-- we are hoping to have a diverse collection of gardens from around the Victoria area that highlight a passion for native plants. The event is planned for Sunday, May 3rd from 10:00 am-4:00 pm. If you are interested in hosting your native plant garden or project, please fill out the information below.

In addition to the private native plant gardens included in the tour, we will share information about the public native plant gardens that can be visited at any time. If you would like information about your public garden to be included in the promotional information for the 2015 Native Plant Garden Tour, please fill out the information below.

Thanks for your interest!

Contact information for land owner or host of the private or public property	
Name:	
Phone:	
Email:	
Address:	
Are you available on Sunday May 3 rd from 10am-4 pm? Y N (Circle one)
