## Win A Kayak!

### HAT is very excited to be raffling off a kayak!

Why? Because everybody wants a kayak! With the help of the **Vancouver Island Canoe and Kayak Centre** and [www.natureexplorations.com](http://www.natureexplorations.com), HAT is holding a raffle for a new Necky *Tahsis* kayak, valued at \$4 500.

The *Tahsis* is a truly exceptional kayak, the perfect way to see the spectacular scenery Vancouver Island is famous for. Designed to be fast yet hold a lot of gear, the *Tahsis* is great for both multi-day expeditions and casual paddling.

The best part about this raffle is that not only do you get a chance to win a great prize, you are also supporting a great cause! The proceeds from the raffle will go to support the children's educational programs at Goldstream Provincial Park.

User fees imposed after a withdrawal of government funding has resulted in many children not being able to take part in the programs. HAT is hoping that the money raised from this raffle along with the *Goldstream Chums* program will ensure that all children will have access to these important educational opportunities.

Tickets can be purchased at::

- Vancouver Island Canoe and Kayak Centre,  
(located on the corner of Government and Pembroke)
- HAT's office (316-620 View St.),
- the Goldstream Nature House,
- and on the evening of the draw at  
HAT's Annual General Meeting: December 10  
at the Swan Lake Nature House (details on backpage).

## President's Message

B. Whittington photo

This year finds us at Habitat Acquisition Trust pondering the generosity of a woman who wanted to make a difference in her world. A year ago **Denise Cammiade** passed away. As an occasional HAT donor and through her involvement in the natural and literary worlds, word of her passing would have eventually come to our attention at HAT. However, this is not how she decided to be remembered. Instead we were notified by the executor of her estate that HAT was a beneficiary in Ms Cammiade's will.

This gift, more than \$50 000, is the most significant individual donation HAT has ever received. It has resulted in two important initiatives:

- HAT has created a dedicated land acquisition fund and,
- HAT has increased our endowment with the Victoria Foundation. In fact we surpassed our target for this year's endowment by 20%!

### Save the Date!

#### *The Wild Garden Party Tour*

A Showcase of Beautiful and Sustainable  
Landscapes and Gardens

Brought to you by the **Wild Garden Party Project**

Keep checking HAT's web-site  
for more info - <http://www.hat.bc.ca/>

### HAT About Town

HAT will have a table display at the **13th Annual Victoria Health Show (January 24 & 25, 2004)** being held at the Victoria Conference Centre, so come and visit us at the show. We also have 2 for 1 coupons available at the HAT office and at the Goldstream Nature House, for anyone interested in going!

A perfect combination! Exactly like the partnership HAT is continuing with that includes the Greater Victoria Compost Education Centre, City Green, Lifecycles Project Society, Naturescape BC and the Native Plant Study Group: a fantastic collaborative project called the **Wild Garden Party**.

It all began when these and other groups came together to design and create an award-winning demonstration garden called the Wild Garden Party Project for the 2002 Victoria Flower and Garden Show at Royal Roads. This garden showcased what homeowners could do in their yards to further land stewardship, and reached 10,000 people at the show. This winning collaboration demonstrated that our combined efforts could achieve what no individual organization could do on its own.

To further the collective goal of the Wild Garden Party, which is to encourage responsible and environmentally sound land use, we are now planning two new projects for 2004: one is to create a residential garden and landscape in the Greater Victoria area that benefits both humans and wildlife, the other is a tour of the “wild gardens” of Victoria in May (see advertisement page 2).

The garden will be created at the site of a home being built by Habitat for Humanity in Sidney. Habitat for Humanity is a nonprofit organization dedicated to helping low-income families build homes. Habitat for Humanity is eager to be involved in a one-year pilot project to assess the feasibility of this approach and are interested in a long-term relationship in which we would create a “sustainable landscape” for each future home Habitat for Humanity builds in Greater Victoria.

These gardens will incorporate sustainable landscaping principles, including:

- Native plantings to provide food and habitat for wildlife and promote ecosystem biodiversity
- Food production using chemical free methods
- Composting for waste reduction and on site garden use
- Water conservation features

habitat are displaced, with the resultant loss of endangered species. Additionally, most new homes are landscaped with exotic species and turf lawn, replacing the biodiversity that once existed and requiring high-energy inputs to maintain. Recognizing this, it is vital that we encourage residents to maintain and/or enhance wildlife features unique to our special region.

The lasting beauty and simplicity of maintaining a “wild garden” will act as an inspiration to neighbours and set new standards for development. The Habitat for Humanity homeowner will be involved in the design of the garden and along with the volunteers will receive education regarding the significance of sustainable home landscapes and the methods of creating them.

We are really excited about continuing this collaboration, and creating opportunities for people to learn more about creating sustainable landscapes. This project is important because it empowers residents to use their land to the benefit of humans and wildlife and provides a long-term solution to living sustainably within the urban environment. A co-op student will be hired to coordinate this project starting in January, thanks to a **Service Learning Internship Grant** from the **University of Victoria**.

*Claudia Copley*

*Having a small patch of stinging nettles on your property would provide food for the caterpillar of the beautiful Red Admiral (Vanessa atalanta), as well as several other species of butterfly. (D. Copley photo)*

## HAT Projects *continued*

### **Chums Lend a Helping Hand**

In June, HAT launched the *Goldstream Chums* program to raise money for the education programs at Goldstream Provincial Park that occur during the fall salmon run. In its first year, the program raised \$ 5 900, thanks to generous support from local businesses. HAT also received a \$4 000 donation from the Victoria Natural History Society, so we were able to contribute \$9 900 towards the children's education programs during the salmon run. This money allowed the programs to be offered for \$2.50 per student, almost 50% less than the cost that was in place last fall. The decreased cost allowed nearly 200 classes to take part in the programs, a 30 % increase over last year.

We are very pleased that so many more children were able to take part in the programs because they provide an invaluable opportunity for children to get practical, hands-on experience in a natural environment, as well as applying skills learned in the classroom. HAT is committed to building the *Goldstream Chums* program in the hope of making the programs free of charge to all students in the Greater Victoria area.

HAT is very grateful for the support we have received from our sponsors. Listed opposite are the 2003 *Goldstream Chums*. Please thank these businesses for being excellent corporate citizens.

## **Good Neighbour News**

We have recently completed the second phase of the **Good Neighbours** project. Over the last six months, Pauline and I have contacted landowners around three protected areas. These areas were selected from a priority list for a number of reasons; one being that each contains extensive Garry oak ecosystems and extant populations of rare and endangered species.

- **The Swan Lake/Christmas Hill Nature Sanctuary** in Saanich.
- **Highrock Cairn Park** in Esquimalt.
- **Uplands Municipal Park** in Oak Bay

The *Good Neighbours* project has encouraged property owners to be good environmental stewards

around these three protected areas and in so doing has strengthened the integrity of those habitats by providing "buffer zones".

Landowners now understand their role in the conservation and protection of their own property, and the importance of how their activities affect the surrounding natural areas. We have built neighbourhood connections in each of the areas we have worked in and we are very pleased that there are local "Friends of" groups forming in the Swan Lake/ Christmas Hill and Highrock Cairn areas.

HAT has been successful in providing over a hundred home visits to interested residents: fully one quarter of the landowners that we were able to reach by phone

*continued on page 5*

## HAT Projects – *continued*

(after the initial mailout) participated. Twenty-seven (27) of these households agreed to sign Voluntary Stewardship Agreements, pledging to be good environmental stewards of their properties. Watch for their “Environmental Steward” signs next time you’re passing through these areas.

Thank you to the following funders that supported the 2003 *Good Neighbours* project: Environment Canada’s **EcoAction** and **Habitat Stewardship Programs**, Human Resources and Development Canada’s **Summer Career Placement Program**, the Provincial Capital Commission’s **Greenways Fund**, the **Victoria Foundation’s Woodsome Fund** and **Sheila Henley Fund**, and the **Victoria Natural History Society**.

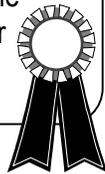

*D. Greer photo*

### **Good Neighbours Project Receives Award**

The *Good Neighbours* Project was recently awarded a **Capital Regional District Water’s Drinking Water Stewardship Award** for 2003.

This award recognises our commitment to educating the public about protecting our region’s water resources.

**Up Next:** We are currently busy with planning and proposal writing because Pauline and I will be undertaking the *Good Neighbourhoods* project in 2004. This will involve working with elementary schools and community groups in the six areas we have visited with the *Good Neighbours* project (the three previously mentioned as well as Oak Haven Park in Central Saanich, Mount Douglas Park in Saanich, and Esquimalt Lagoon in Colwood). One of our goals is to reinforce the stewardship messages we put forward in the initial stages of the project by educating children and their families about species and ecosystems at risk.

The **JW McConnell Family Foundation/Victoria Foundation Environmental Funding Program** and **Vancouver City Savings Credit Union** have already each committed \$10,000 towards this project.

*Jen Eliason*

## Fundraising

### **The Goldstream Salmon Run Fun Run**

We had spectacular weather and lots of salmon in the river for the second annual *Goldstream Salmon Run* Fun Run held on Sunday, Oct 26 in the Goldstream Provincial Park campground. Sponsors this year included: water (what else!) from **Canadian Springs Water Company**, fresh, organic and delicious fruit from **Small Potatoes Urban Delivery (SPUD)**, and a large selection of fabulous door prizes donated by **Frontrunners**. **Westside Instaprint** provided all the race brochures and pledge forms, and the shirts came

from **Canadian North Outfitters**. **RLC Enterprize Ltd.** provided free overnight camping in the park to run participants, and cleaned off the route for us! Volunteers for the run included **Casey Tweddell** (chief organiser extraordinaire –see “HAT People” page 7), **Rebecca Westle** (data entry specialist), **Bev Adamson**, **Robert Anderson**, **Jean and Robert Copley**, **Donna Gaudard**, **Brian Graham**, **Rick and Carol Lester**, **Nick Johnson**, **James Miskelly**, and **Cindy Tkachuk**.

Thanks to everyone who sponsored the run, the run volunteers, and the runners!

## Fundraising – *continued*

### ***The Nature of Island Artists Art Show: Thank You Volunteers!***

Another successful art exhibit was held this past September and October at the Goldstream Nature House. This success is due to the volunteer efforts of members of the Victoria Natural History Society, the Goldstream Nature House volunteers, and the volunteers that consistently appear every two years when we put out the call for help with the show.

Each day there were as many as six volunteers helping to staff the show. This involved welcoming visitors, selling raffle tickets, helping people with the silent auction, directing people to the “People’s Choice” ballot box, distributing scavenger hunts, and guarding against damage and theft. We also had a tremendous amount of help with the set up, soliciting food donations for the opening wine and cheese event, food preparation and set up for the opening night, and flowers.

The show was beautiful and well attended, and HAT would like to thank everyone who volunteered to make this another great event. This year HAT is using all the funds raised (approximately \$10,000) to help keep the Nature House open. In 2002 the provincial government determined that educational programming in BC’s parks was not a core responsibility of government and all funding dollars were cut.

We would like to take our hats off to the following people for all their help:

Special thanks also to **Thrifty Foods** for their 200\$ gift certificate for the opening wine and cheese, and to **RLC Enterprize Ltd** for the donation of all of the wine for the evening. **Saputo Cheese** generously provided several blocks of Armstrong Cheese to complete the evening.

## HAT People

For two years in a row **Casey Tweddell** has volunteered her time to organize the 5 km *Goldstream Salmon Run*, with terrific success. Having a run was Casey's idea in the first place, and the route through the campground has proven to be a big hit with all the runners (except for those hills!). All of the work involved with the run is coordinated by Casey in her spare time: and being a working parent means that there is very little time to spare! Our thanks go out to Casey for the tremendous effort she puts in. She tells us that she is ready to do it all again next year!

*Trevor MacDonald (right) ambitiously fundraised for the Salmon Run Run (B. Whittington photo)*

HAT would like to welcome **Velma Hainsworth** as a sustaining member of our organization. One thousand dollars of Velma's donation has been added to our endowment fund, held at the Victoria Foundation. This fund ensures HAT will have long term financial stability to complete our important work. Thank you Velma!

## HAT's Annual General Meeting and Open House

Wednesday, December 10<sup>th</sup> at 7:00 pm

Swan Lake Christmas Hill Nature Sanctuary Nature House

Please join us for reflections on the year, warm drinks and baked goodies.

This is an opportunity to celebrate our successes of the past year, but we also conduct some important matters of business including electing new HAT Directors. Only HAT members may vote at an AGM; memberships will be sold at the Meeting. Of course: we will also be raffling off the kayak – just in time for the gift-giving season. Good Luck!

The HAT Board of Directors proposes the following bylaw changes be considered, discussed and voted on at the annual general meeting:

Term Limits - Suggested wording Part 5, section 3:

1. Directors shall be elected at the annual general meetings and shall hold office for a term of three years beginning at the end of the annual general meeting at which the director was elected [~~with the exception:~~]. [~~Delete paragraphs a. through d.~~]

2. No director shall hold office for more than two consecutive terms.

Election of Officers - Suggested wording Part 7, section 1

The directors shall elect from among the directors, for a term of one year, a president, **vice-president**, secretary, and treasurer at the first meeting of the directors held after the [~~delete annual~~] **general** meeting in each year.

Miscellaneous - Suggested wording Part 7, section 4

The **vice-president** shall carry out the duties of the president during the president's absence.
